

ReadySuite™ \$420/month

Includes a 48-seat office solution + up to 5 intel servers.
Testing is optional (for an additional fee).

As an NAB member benefits program, Agility Recovery is providing a comprehensive business continuity solution. ReadySuite is an effective and streamlined solution that provides continuity of operations assets for your station following a disaster of any sort. The ReadySuite membership addresses the typical high-cost, high complexity factor associated with business continuity. For a small monthly fee, Agility will deliver whatever you need to recovery your station.

In the event of disaster, you only pay the actual recovery costs. Unlike other programs, Agility has no disaster declaration fees. No disaster alert fees. No daily usage fees for the first 60 days.

ReadySuite includes:

Plan

Secure Online Portal to make & update recovery plans, store vital documents, and set up Alert Notifications

Power

Emergency generators stationed across North America

Office Space

Office space to fit any need including mobile, commercial and local brick and mortar space

Computer Systems

Computers, Intel servers, tape drives, printers and fax machines ready for express delivery

Communications

Satellite connectivity to restore phone and Internet connectivity
