

2022
NAB TECHNOLOGY INNOVATION AWARD
ELIGIBILITY REQUIREMENTS AND
NOMINATION FORM

NAB is currently accepting nominations for the **2022 NAB Technology Innovation Award**. First presented at the 2009 NAB Show, NAB presents the award to organizations that bring advanced technology exhibits and demonstrations of significant merit to the NAB Show. The nominated exhibit should present advanced research and development projects in media and communications technologies that have *not yet* been commercialized.

Candidates for the Technology Innovation Award must be presented by organizations that are exhibiting at the 2022 NAB Show. The size of the organization is not a determining factor.

Nominated projects may not be commercial products that have been offered for sale prior to or at the 2022 NAB Show but must be exhibited or presented in some form at the Show. The merit of the technology and its exhibition are the sole factors to be considered in selection of the award winner.

The honoree will be recognized at the 2022 NAB Show in Las Vegas, April 23 – 27, 2022.

The purpose of this form is to collect information about the nominated technology and its presentation at the 2022 NAB Show, and why it should be considered for the NAB Technology Innovation Award. (If multiple organizations are involved in the project, please list them all, but indicate a single point of contact for the nominated technology.)

Please complete this form with timely and relevant details. Additional exhibits may be attached.

2022 NAB TECHNOLOGY INNOVATION AWARD NOMINATION FORM

The purpose of this form is to collect information about candidates for the 2022 NAB Technology Innovation Award. Please complete this form with timely and relevant information. Attach additional exhibits if desired.

Please send nominations to TechAwards@nab.org by **January 11, 2022**

Technology Name

Presenting Organization(s)

Description of technology to be exhibited: (Please explain what the company is exhibiting, and why it is unique or how it advances the current state of technology. Attach additional exhibits if necessary, and reference them in the description below.)

☐

By checking this box, I confirm that, to the best of my knowledge, commercial products using this technology will not be available at the time of the 2022 NAB Show.
