

2024
NAB TECHNOLOGY INNOVATION AWARD
ELIGIBILITY REQUIREMENTS AND
NOMINATION FORM

NAB is currently accepting nominations for the **2024 NAB Technology Innovation Award**. First presented at the 2009 NAB Show, NAB presents the award to organizations that demonstrate advanced research and development projects of significant merit at the NAB Show. **Nominations are limited to projects that have not been commercialized into products.**

Candidates for the Technology Innovation Award must be presented by organizations that are exhibiting at the 2024 NAB Show. The size of the organization is not a determining factor.

Nominated research and development projects may not be commercial products but must be demonstrated or exhibited in some form at the Show. The merits of the technology being shown and its relevance to the broadcast, media and entertainment community are the sole factors that will be considered in selecting the award winner.

The honoree will be recognized at the 2024 NAB Show in Las Vegas, April 14 - 17, 2024.

Please use this form to submit information about the nominated research and development technology, how it will be demonstrated or presented at the 2024 NAB Show, and why it should be considered for the NAB Technology Innovation Award. (If multiple organizations are involved in the project, please list them all, but indicate a single point of contact for the nominated technology.)

Please complete this form with timely and relevant details. Additional exhibits may be attached.

2024 NAB TECHNOLOGY INNOVATION AWARD NOMINATION FORM

The purpose of this form is to collect information about candidates for the 2024 NAB Technology Innovation Award. Please complete this form with timely and relevant information. Attach additional exhibits if desired.

Please send nominations to TechAwards@nab.org by *the end of the day, Monday, January 9, 2024*
